What is 5th Avenue?

5th Avenue is a crypto community with the focus on education and support. We aim to educate the masses on Crypto and on VITE specifically. We want to build a knowledgable user-base who can help new users and point them in the right direction!

Thus promoting healthy Crypto-education!

Why an SBP:

The way I found out about Nano (and by extension later on VITE) was through the many Nano faucets that exist. 5th Avenue's end goal is to draw in users by offering a multi-token faucet you can redeem from by helping out on the Discord server. The SBP will fund the faucet and by extension, support other VITE tokens by raising their price on ViteX!

$AVE Token!

Once we acquire an SBP we will mint the AVE token, this token will not be listed, therefore will not have a price. The token will be distributed on the Discord server in a multitude of ways. Active users will automatically have $AVE deposited into their wallets. On top of that users will be able to "gift" $AVE to users if they were helpful to them!

$AVE will be used to claim from the faucet, you send the $AVE token, you receive a token of your choice.

5TH AVENUE ROADMAP

1

SBP

Acquire an SBP to begin funding a faucet and supporting VITE projects

2

$AVE

Mint the $AVE token so that users start supporting each other on the Discord server!

3

FAUCET

Launch the 5th Avenue faucet to attract users to VITE and to promote Crypto-education

4

AVE HANDBOOK

Release a complete crypto guide how-to with the purpose of helping new users and supporting the ecosystem

5

PARTNER WITH VITC

Further promoting of healthy living and healthy education! Share resources and knowledge.

6

LONG TERM

Create a DAO for deciding what token to buy for the faucet and for how to use the SBP rewards.

5th Avenue

Not Convinced?!

Here's a summary: 5th Avenue will promote healthy crypto education, will draw new users into VITE and will <u>also</u> support existing VITE communities. It is a win-win scenario!

I'll be waiting over at the Millionaire's Row!
